Each company's own margin measure (last column), so levels are not like-for-like. Change versus the same period last year in bps; green / red = margin up / down. The outlined column is Q1 2026.

[1] Emerson's financial year ends on 30 September, so its quarters are offset from the calendar: Q1 = October–December, Q2 = January–March, Q3 = April–June, Q4 = July–September. Quarters are shown as Emerson labels them (e.g. Q1 2026 = October–December 2025). [2] Danfoss is not listed on a stock exchange (owned by the Danfoss family and the Bitten & Mads Clausen Foundation), so it has no share price; it is included because it publishes audited financial results, half-year and full-year only. For half-year reporters Q2 = H1; FY 2025 = full-year results.
