Disclaimer

Forward-looking statements

This media release includes forward-looking information and statements as well as other statements concerning the outlook for our business. These statements are based on current expectations, estimates and projections about factors that may affect GF's future performance, including global economic conditions and the economic conditions of the regions and industries that are major markets for GF. These expectations, estimates and projections are generally identifiable by statements containing words such as "anticipates," "expects," "estimates," "intends," "plans," "targets," "guidance," or similar expressions. However, there are many risks and uncertainties, many of which are beyond GF's control, that could cause actual results to differ materially from the forward-looking information and statements made in this press release and which could affect our ability to achieve any or all of GF's stated targets. These include, among others, business risks associated with the volatile global economic environment and political conditions, market acceptance of new products and services, changes in government regulations and currency exchange rates. Although GF believes that its expectations reflected in any such forward-looking statement are based upon reasonable assumptions, it can give no assurance that those expectations will be achieved.

Alternative performance measures

GF uses certain key figures to measure its performance that are not defined by Swiss GAAP FER. As a result, their comparability with similar figures presented by other companies may be limited. Additional information on these key figures can be found at Alternative Performance Measures.

© GF v3.3

Highlights – order intake up organically 15.1%

Challenging market environment

- Adverse weather conditions in January and February
- Outbreak of Middle East conflict, driving cost inflation
- Acceleration across business areas in Q2 2026, with record semiconductor-related order intake

Focus on execution

- Divestment of Precicast with proceeds of ~ CHF 220 million[1]
- Pro-active pricing strategies to offset cost increases
- Fit for Growth well on track and working capital measures launched to sustainably improve cash flow
- Solid start to Strategy 2030

Outlook 2026

- Raised sales outlook for 2026, with mid single-digit organic growth
- Unchanged EBITDA margin (comparable) of 14 – 16%

[1] Closing towards year-end 2026

© GF v3.3

Mid-year 2026 key figures

(CHF)

GF’s Flow Solutions business

Order intake
1.7 billion

Net sales
1.6 billion

Sales growth
+5.7 %
organic

EBITDA margin
13.4 %
comparable

IIFS EBITDA margin
14.4 %
comparable

BFS EBITDA margin
12.6 %
comparable

EBIT margin
10.0 %
comparable

IIFS EBIT margin
11.3 %
comparable

BFS EBIT margin
9.3 %
comparable

Sales with social or environmental benefits
77 % of net sales
H1 2025: 76%

Scope 1 and 2 emissions
40 kt CO_2e
H1 2025: 42

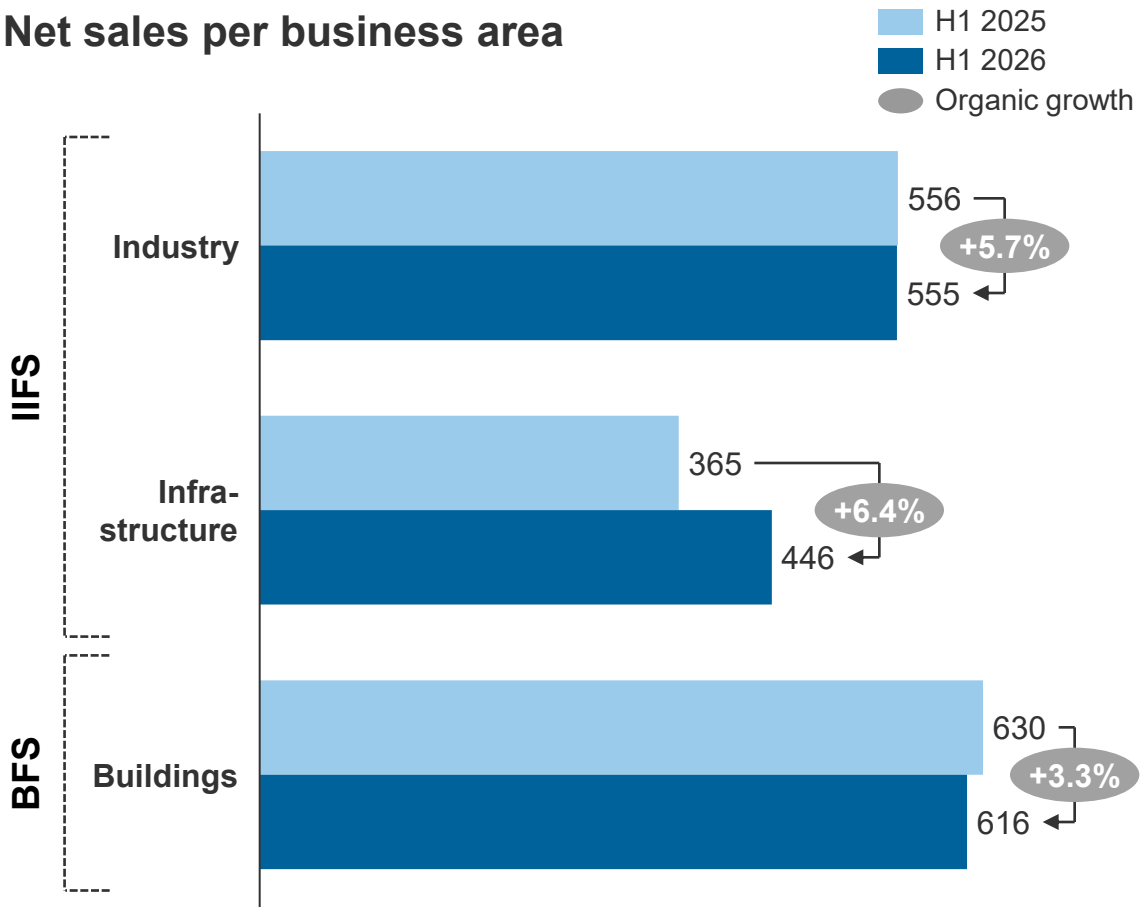

Accident rate (LTIFR)
2.5 per million hours worked
H1 2025: 4.0

© GF v3.3

Solid growth across all business areas

(CHF million)

Net sales per business area

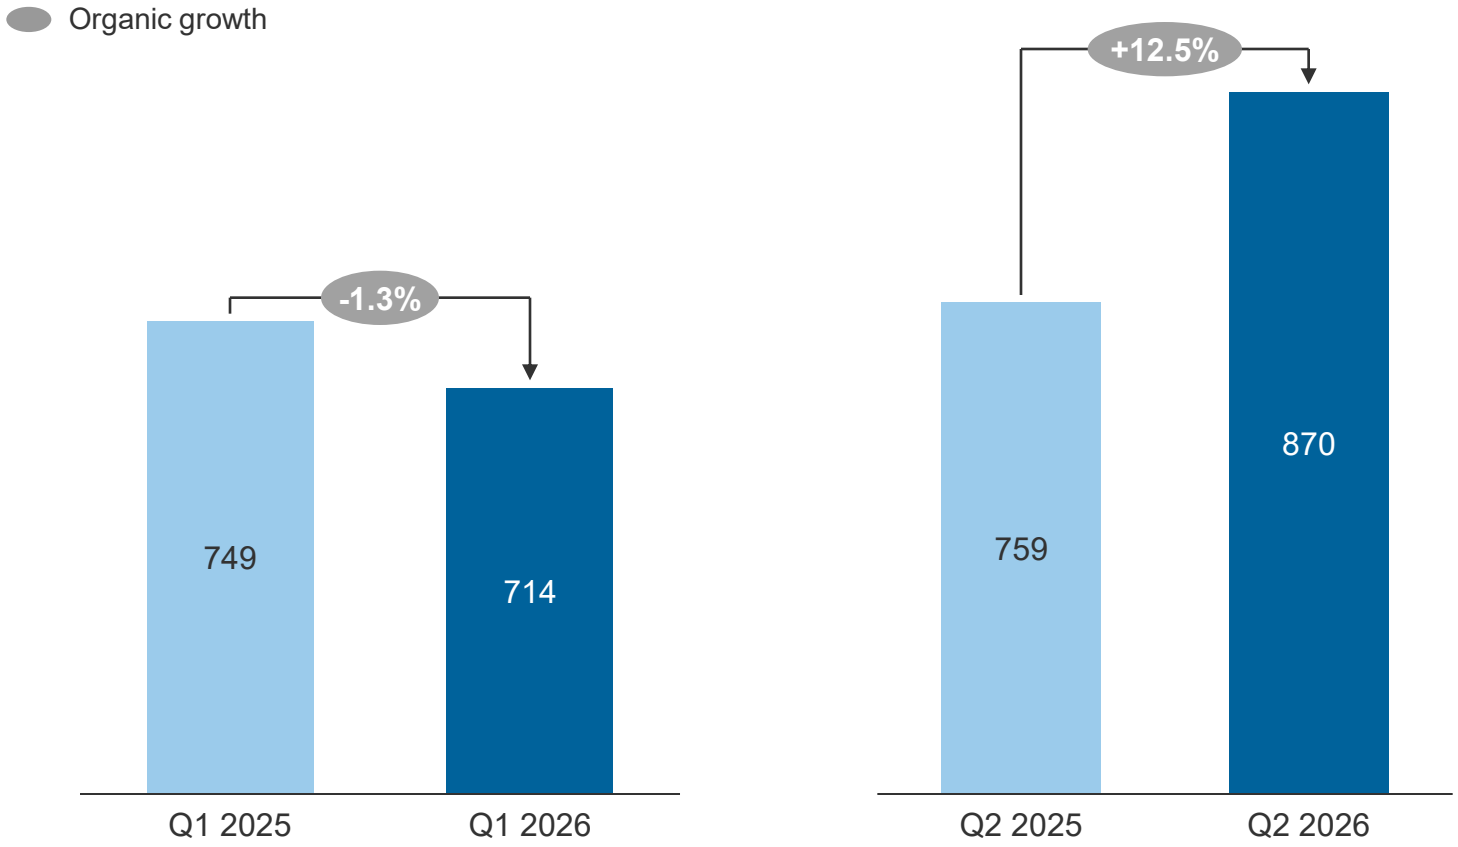

Data Center campus

© GF v3.3

Strong acceleration in Q2 2026

(CHF million)

Quarterly net sales

- Severe winter in Q1 led to subdued sales and underutilized plants
- Strong acceleration from April, with order intake well above prior year across business areas
- Solid growth in Buildings in Q2, supported by selective pre-buying

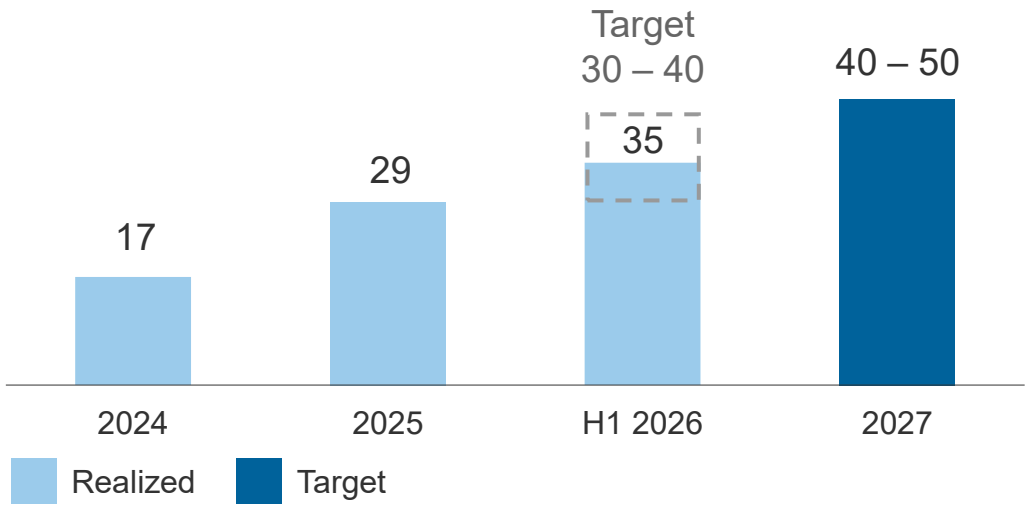

© GF v3.3

Ongoing value creation and efficiency programs to drive profitability

(CHF million)

Uponor Value Creation program

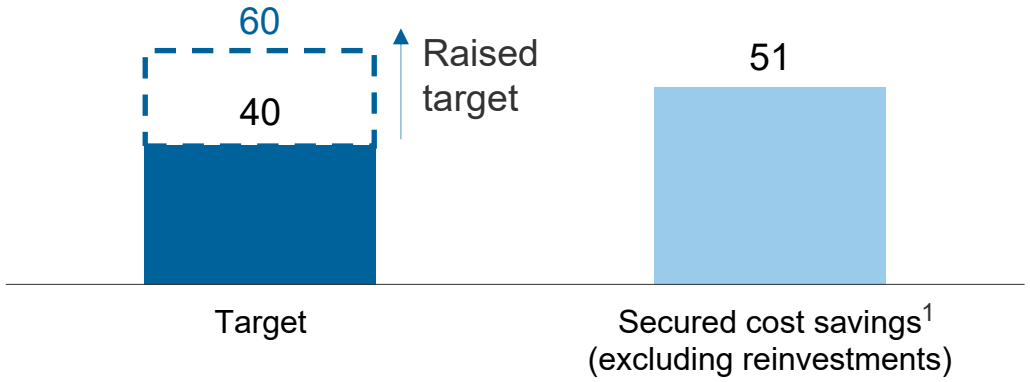

(Annual run-rate synergies)

- Launched in 2023 post-acquisition of Uponor
- Cost synergies driven by procurement, footprint and organization
- Current focus on commercial synergies

Fit for Growth program

(Secured cost savings[1] for full year 2026 by 30 June)

- Launched Q4 2025 to drive effectiveness and efficiencies
- Reinvestments in strategic areas, ‘pull’ initiatives and digitalization
- Measures implemented in BFS Europe to reduce complexity

[1] Includes H1 2026 opex savings and full year 2026 savings from realized FTE initiatives

© GF v3.3

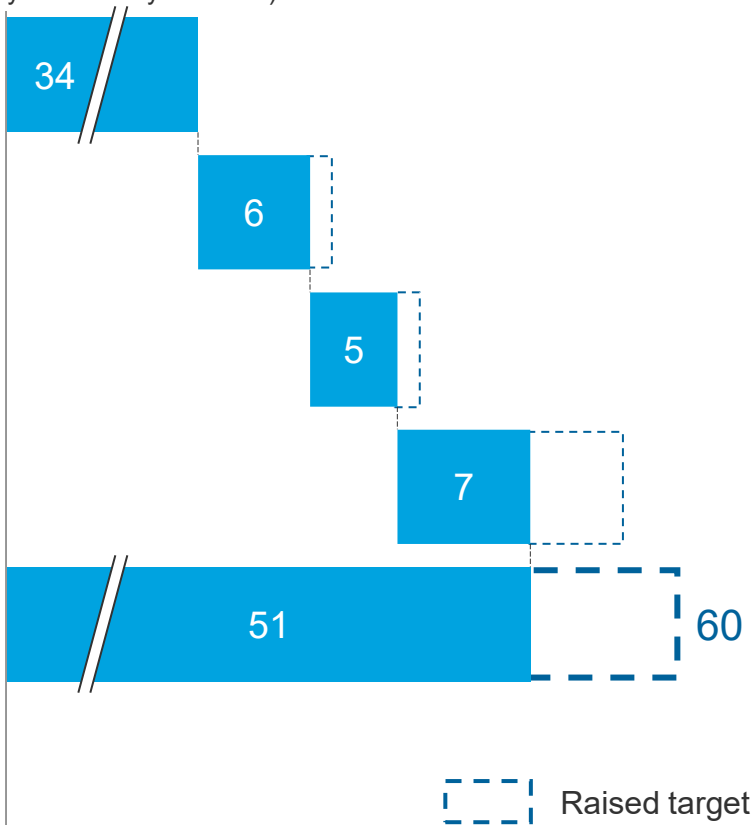

Successful execution of Fit for Growth, with reinvestments in strategic growth areas

(CHF million)

Measures implemented

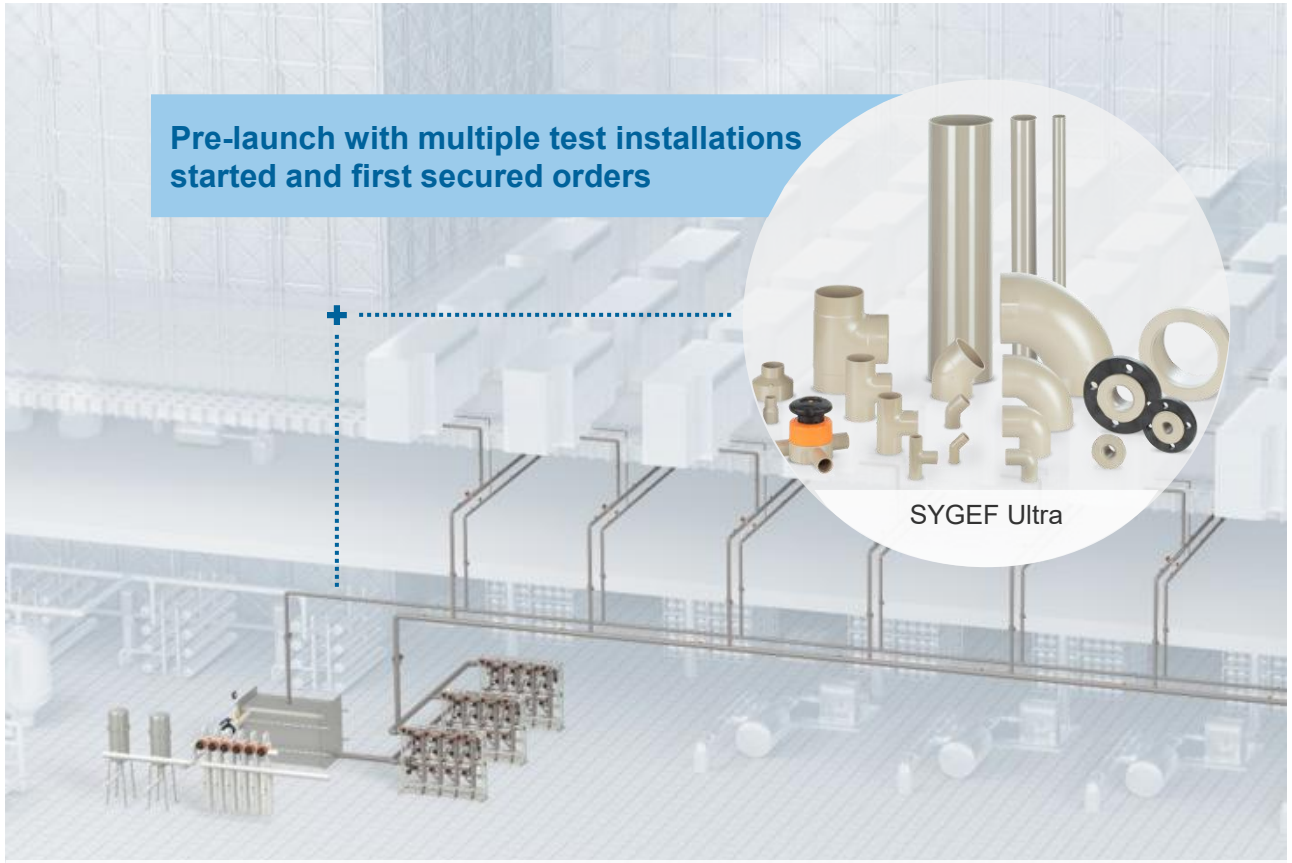

Restructuring	▪ Divisional and local management de-layering in BFS and IIFS to drive performance and customer proximity ▪ Reduction of non-customer facing roles
Right-sizing corporate functions	▪ OneGF approach to centralize and remove overlaps in corporate functions
Production unit closures	▪ Exit from non-core marine services in Nordics ▪ Closure of production units in China, Malaysia and Oman
Opex savings	▪ Organization-wide measures to reduce external costs
Total secured cost savings	
Reinvestments in growth areas	▪ New strategic hires and redeployments in growth areas ▪ Strengthening technical sales to drive planner and installer collaboration ▪ Digitalization and AI to improve customer experience and efficiencies

Financial impact (Secured cost savings for full year 2026 by 30 June)

© GF v3.3

Reinvestment in strategic focus areas – compelling ultrapure systems for semiconductor industry

UPW application in a semiconductor fab

Industry needs: Advanced Ultrapure Water transport systems for the next generation of semiconductors

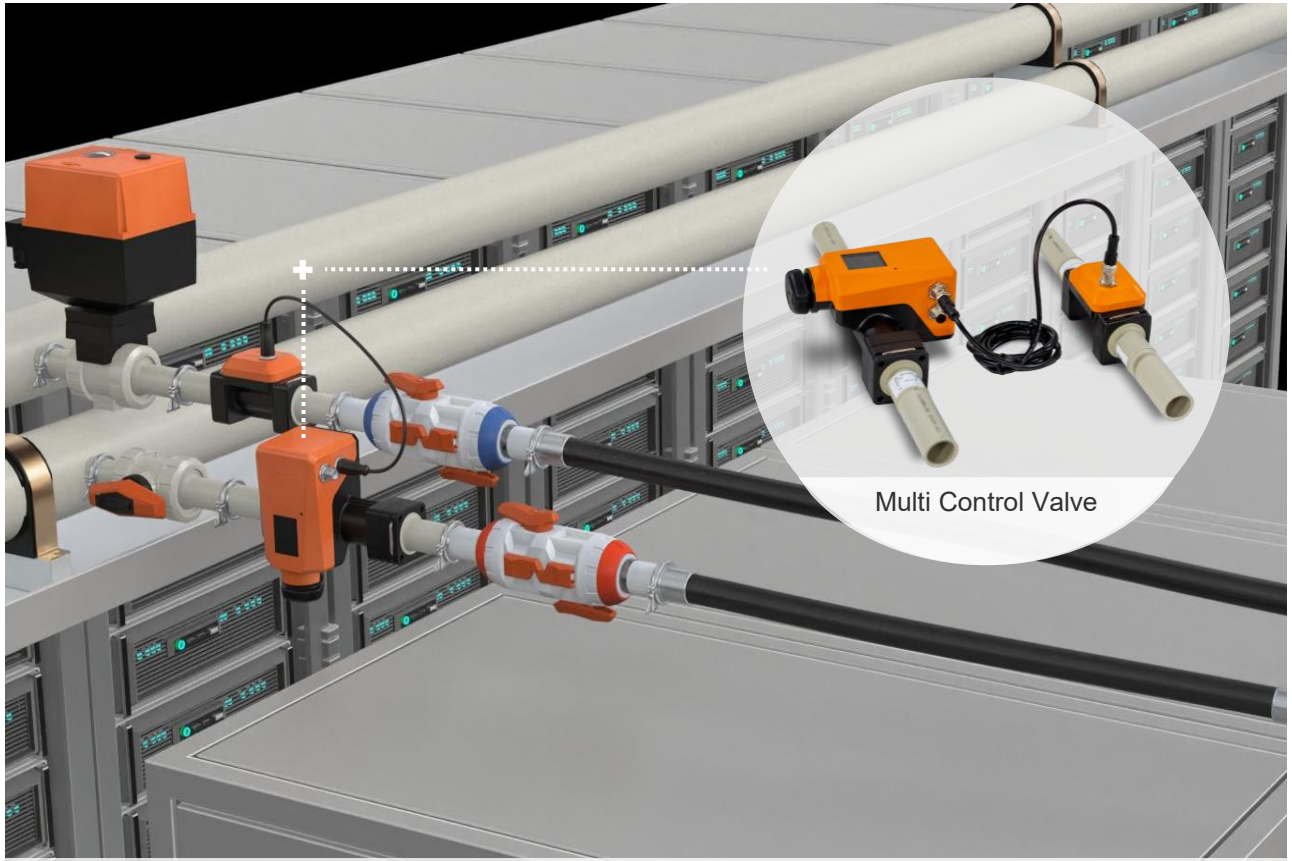

GF solution: SYGEF Ultra system
Highest purity levels, exceeding industry standards

~80 % **Faster rinse-down** during installation

~70 % **Less thermal expansion** resulting in about 20% less components

© GF v3.3

Reinvestment in strategic focus areas – cooling data centers with smarter flow control

Data center cooling installation with Multi Control Valve

Industry needs: Reliable thermal performance and efficient long-term operation

GF solution: Multi Control Valve
Cohesive system with five integrated sensors for flow, temperature, energy and pressure

+ 7 x **Faster reaction times**
optimized ceramic disc technology

- 20 % **Reduced energy consumption**

- 50 % **More compact**
simplifying installation

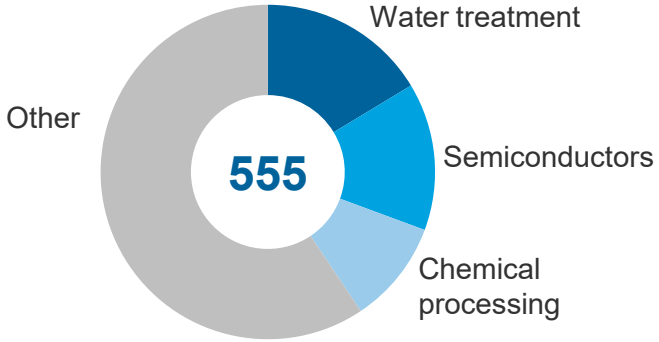

© GF v3.3

Three business areas addressing diverse end-markets

(CHF million)

Industry

Sales breakdown[1] – H1 2026

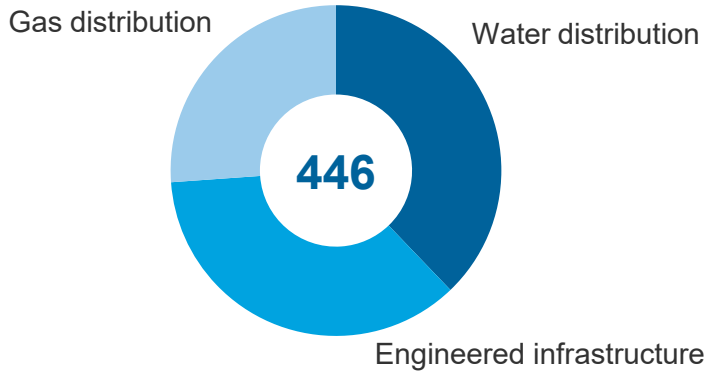

Top five markets:

- US
- China
- Germany
- Japan
- UK

Key customers:

PALL Pall Corporation, VEOLIA, tsmc, Micron, intel, PUB, LG U+, kt cloud, NTT, VERTIV.

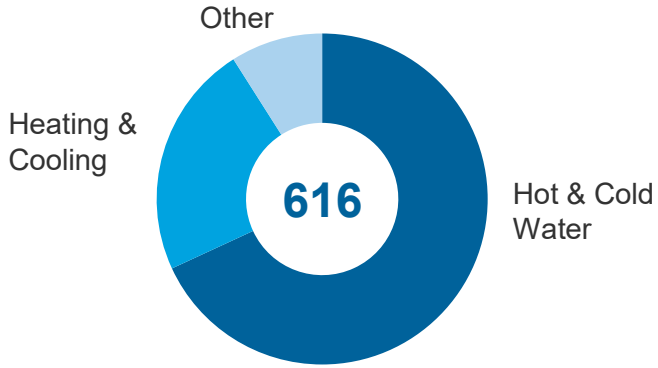

Infrastructure

- US
- Germany
- Nordics
- Brazil
- China

China Resources Better Life Together, VEOLIA, Naturgy, ahlsell, sabesp, DAHL, SUEZ, onninen

Buildings

- US
- Germany
- Switzerland
- Nordics
- Eastern Europe

ahlsell, Winsupply, GC GRUPPE, SAINT-GOBAIN, FERGUSON, DAHL, onninen, Debrunner Acifer, WOLSELEY

[1] Sales breakdowns are indicative

© GF v3.3

Industry – strong order intake in semiconductor and data center cooling

Key figures – H1 2026 (CHF million)

649
Order intake
(H1 2025: 545)

555
Net sales
(H1 2025: 556)

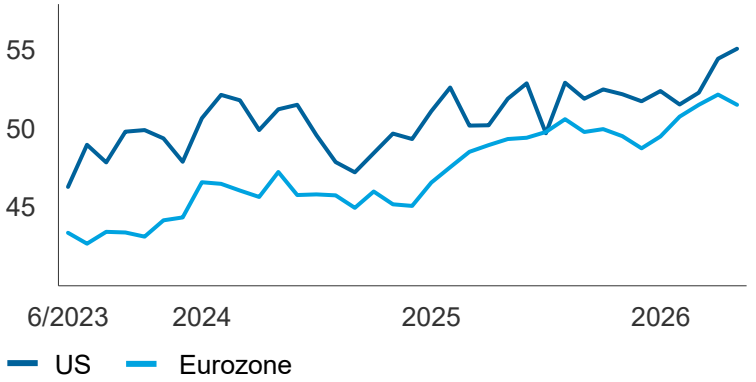

+5.7 %
Organic growth

18.8 %
EBITDA margin (comparable) [1]
(H1 2025: 19.7%)

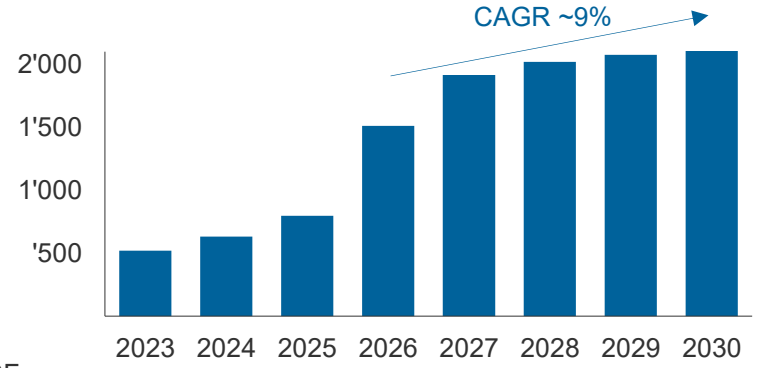

Performance highlights

- Strong growth in order intake driven by semiconductors and data center cooling, doubling compared to prior year
- Europe and North Asia generally subdued amid geopolitical uncertainties
- Comparable EBITDA margin stable, with negative FX effects and cost inflation, offset by price increases and cost savings

Manufacturing PMI[2]

Global semiconductor market[3] (USD bn)

[1] Indicative based on defined cost allocation methodology [2] Source: S&P Global Manufacturing PMI (June 2026) [3] Source: WSTS, GF

© GF v3.3

Industry – strong momentum in strategic focus areas

Key segments	Growth momentum	Key market drivers & GF differentiation
 **Water Treatment**	↗	▪ Drive towards water re-use favors corrosion-free and efficient solutions
 **Semiconductors**	↑	▪ New AI-driven semiconductor cycle with increasing water purity requirements
 **Chemical Processing**	→	▪ Rising investments to upgrade plants handling hazardous fluids
 **Life Science**	↑	▪ Rising regulatory and safety standards necessitate contamination control
 **Marine**	→	▪ Growing post-Covid demand and shift to corrosion-free & light-weight systems
 **Energy**	↗	▪ Growth in renewables requires cooling for converter stations
 **Data Centers**	↑	▪ Fast-growing end-market shifting to liquid cooling

© GF v3.3

Infrastructure – continued momentum supported by large customer wins

Key figures – H1 2026 (CHF million)

446
Order intake
(H1 2025: 344)

446
Net sales
(H1 2025: 365)

+6.4 %
Organic growth

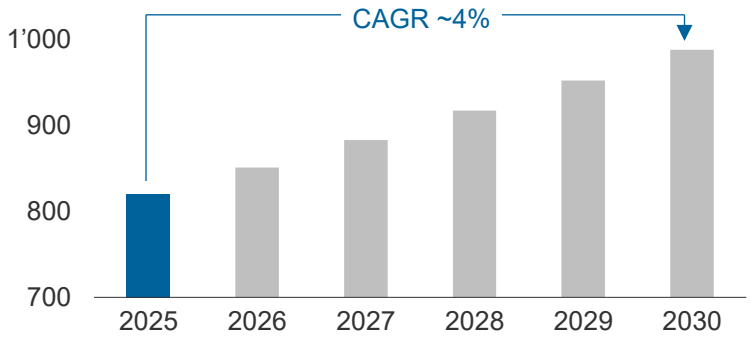

9.0 %
EBITDA margin (comparable) [1]
(H1 2025: 7.7%)

Performance highlights

- Solid momentum in order intake and sales driven by demand for water distribution and stormwater solutions in Europe and US gas distribution
- Chinese market for gas distribution remains highly subdued
- Comparable EBITDA margin affected by negative FX effects, unbalanced production load over the quarters and raw material cost inflation, partially offset by price increases and cost savings

Global water infrastructure capex[2]

(USD billion)

[1] Indicative based on defined cost allocation methodology [2] Source: GWI

© GF v3.3

Infrastructure – aging networks drive sustained demand

Key segments	Growth momentum	Key market drivers & GF differentiation
 **Water Distribution**	↑	▪ Aging networks with global > USD 1.3 trillion[1] investment need, with 1/3 of treated water lost as non-revenue water[2] ▪ GF as sole comprehensive solution provider with VAG valves and leading repair systems
 **Gas Distribution**	↗	▪ Ongoing build-out and modernization in the US ▪ GF strong gas offering, with bundled solutions and focus on safety & compliance for residential market
 **Engineered Infrastructure Solutions**	↑	▪ Demand driven by climate-related flooding, aging networks and regulation ▪ Integrated pressure management for more efficient water infrastructure

[1] Source: World Bank [2] Source: GWI

© GF v3.3

Buildings – outperformance in subdued construction markets

Key figures – H1 2026 (CHF million)

634
Order intake
(H1 2025: 622)

616
Net sales
(H1 2025: 630)

+3.3 %
Organic growth

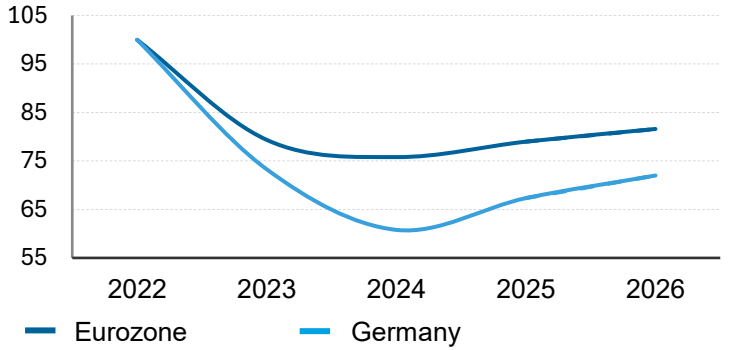

12.6 %
EBITDA margin (comparable)
(H1 2025: 12.5%)

Performance highlights

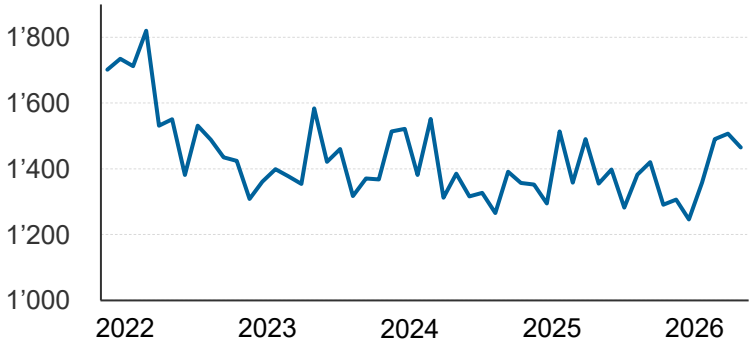

- Positive organic growth in Europe and US despite declining underlying markets and adverse weather conditions in Q1
- Price increases implemented from 1 April with selective pre-buying
- Solid growth in indoor climate and heat-pump connection portfolio in Europe
- Home Depot expansion to 100 stores by year-end confirmed
- Comparable EBITDA margin stable, with negative FX effects and cost inflation offset by price increases and cost savings

Europe – Building permits[1]

(indexed, 2022 = 100)

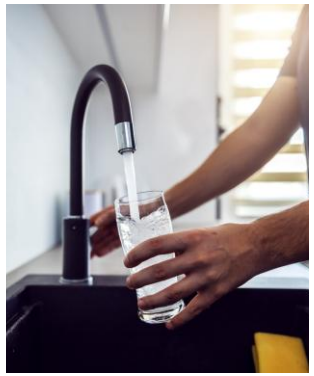

US – Housing starts[2] (1'000 units)

[1] Source: EUROCONSTRUCT, June 2026 [2] Source: US Census Bureau, May 2026

© GF v3.3

Buildings – solid long-term structural drivers

Key segments	Growth momentum	Key market drivers & GF differentiation
 **Water supply** Hot & cold water	→	▪ Demand driven by housing shortage, drinking water regulations and shift to polymer ▪ GF US PEX market leader with 35% share; 10 – 15% in key European markets, mostly in Multilayer Composite Piping ▪ Expertise in drinking water, with focus on water quality & reliability, and efficient installation
 **Heating & cooling**	↗	▪ Growth driven by regulatory-driven building renovation and heat pump adoption ▪ GF innovative solutions, e.g. Ecoflex VIP, offering best-in-class heat-loss performance and prefabrication

Financial performance

Mads Joergensen, CFO

© GF v3.3

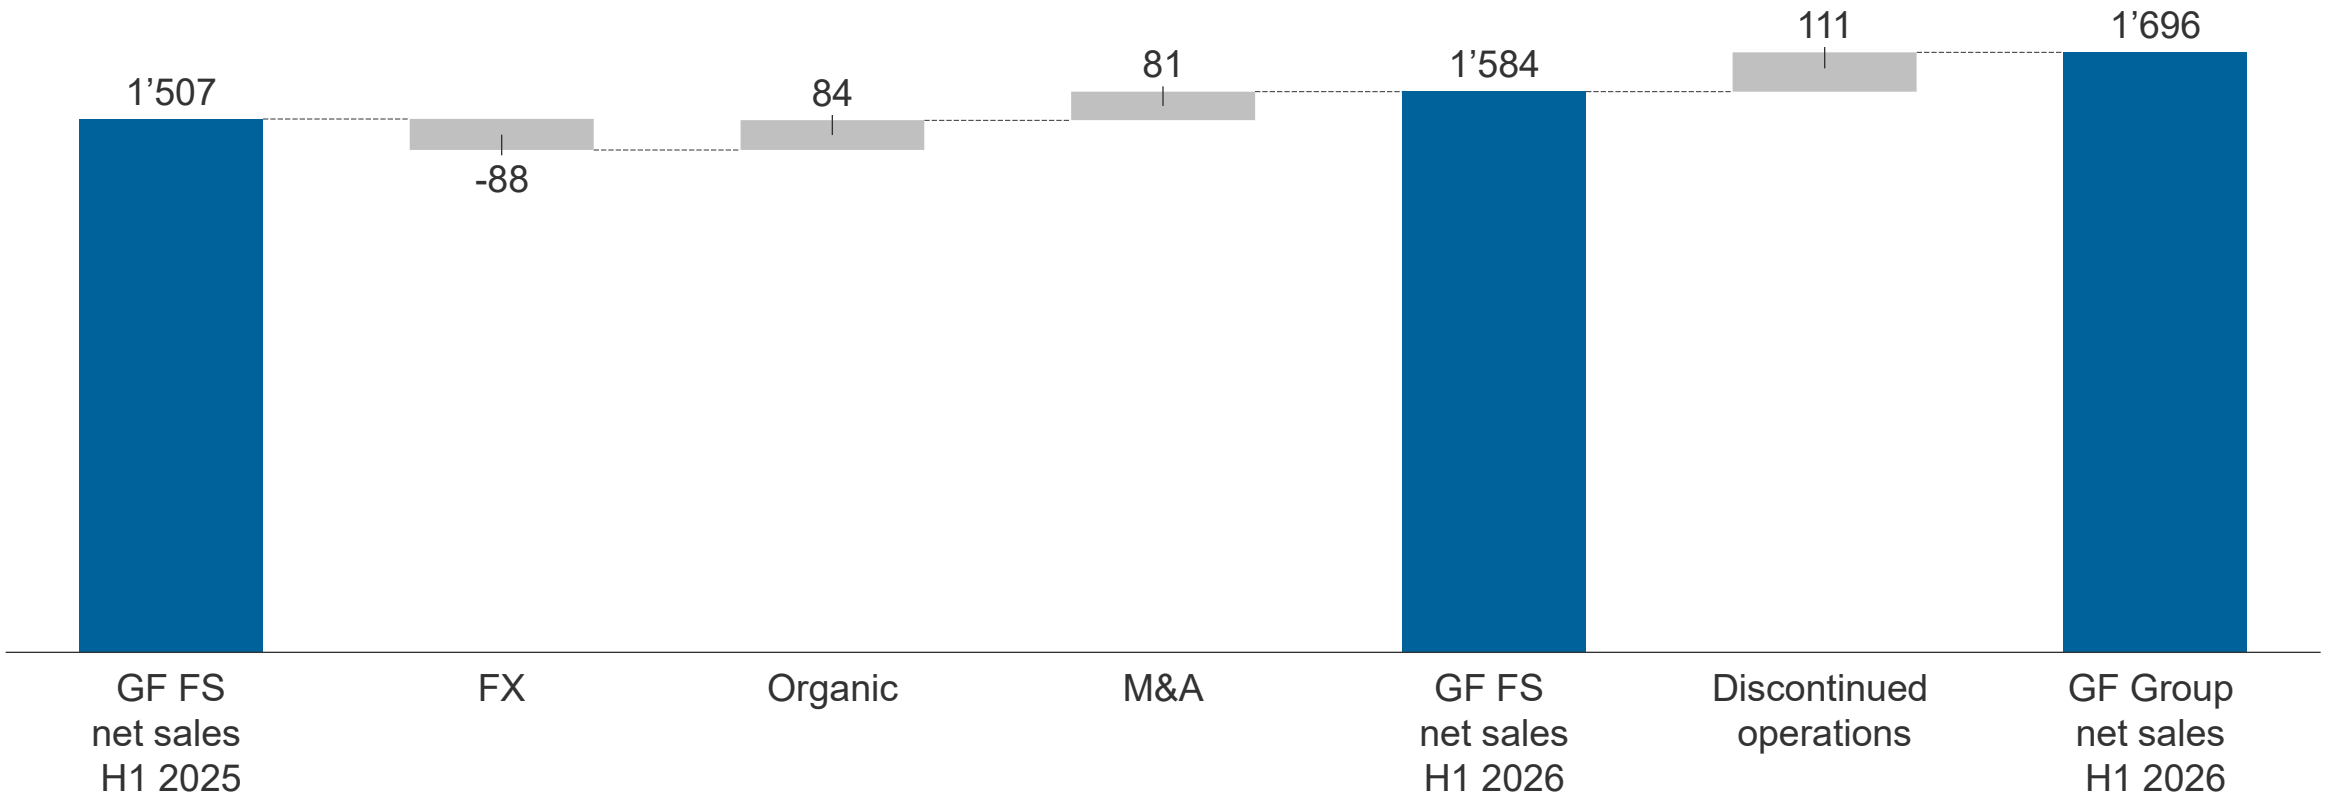

Transformation-related effects on financial reporting

- GF's transformation continues to impact the presentation of results in 2026
- GF Flow Solutions corresponds to Continuing operations, which include one-off effects such as the divestment-related CHF 172 million deconsolidation loss
- Discontinued operations include Casting Solutions' automotive business for one month until 31 January 2026 and six months of Precicast
- Comparable figures adjust for (i) effects of divestments and (ii) restructuring expenses and other items affecting comparability
- Cleaner reporting and significantly lower adjustments expected following closing of Precicast end-2026

GF Group net debt development

Net debt

(CHF million, net debt / EBITDA (x)[1])

- Expected proceeds of ~ CHF 220 million from Precicast divestment used for debt reduction
- Net debt / EBITDA[1] estimated at ~2.4-2.8x post-closing at year-end

[1] As defined by lending banks for applicable covenants

© GF v3.3

Outlook 2026

Andreas Müller, CEO

© GF v3.3

2026 outlook for GF's Flow Solutions business

Industry

- Strong semiconductor and data center order intake
- Mixed industrial environment driven by geopolitical tensions

Infrastructure

- Continued high demand driven by global water infrastructure investments
- New customer wins supporting strong momentum
- Attractive synergy opportunities through GF, Uponor and VAG

Buildings

- Positive development in overall subdued construction markets in Europe and North America
- Home Depot expansion advancing according to plan
- Heating & cooling portfolio performing well

Fit for Growth with raised target of CHF 60 million cost savings booked in 2026

Mid-single digit organic sales growth with a comparable EBITDA margin of 14 – 16%

© GF v3.3

Strategy 2030 targets to drive profitable growth

Net sales	EBITDA margin	FCF / EBITDA conversion	Return on invested capital
CHF billion			
4.2 – 4.5	**16 – 18%**	**> 50%**	**21 – 26%**
incl. 0.5 – 0.6 bn acquisitions **Organic growth CAGR 4-6%**	EBIT margin: 13 – 15%		

Strategy 2030+
Excellence in Execution

- **Maximize the core business**
- **Grow with new opportunities**
- **Lead with innovative solutions**
- **Foster a "One GF" performance culture**
