

Schaffhausen, 24 July 2025

Mid-Year Report 2025

Andreas Müller, CEO | Mads Joergensen, CFO

Excellence in Flow+

+GF+

© GF v3.2

Highlights

Resilient performance despite headwinds

- Strong momentum in Infrastructure, tariff-induced uncertainties delayed investments in Industry
- GF Building Flow Solutions sales in the US on previous year‘s level despite declining market
- Comparable EBIT margins down on mix effect, tariffs and FX

Strategic transformation to become a pure-play Flow Solutions company

- Divestment of GF Machining Solutions closed
- Acquisition of VAG-Group expands infrastructure and industrial offering
- GF Casting Solutions’ divestment process well advanced

Outlook 2025 – GF’s Flow Solutions business

- Flat to lower single-digit organic growth
- Comparable EBIT margin in the range of 10.5 – 12.5%
- Capital Markets Day on 4 November 2025

© GF v3.2

Divestment of GF Machining Solutions closed

- Signing of GF Machining Solutions divestment to United Grinding Group announced on 30 October 2024
- Transaction closed on 30 June 2025
- Agreed purchase price on a cash and debt-free basis of CHF 630 million
- Proceeds of transaction were used to repay remainder of term loan used for Uponor acquisition
- Increase of financial flexibility to pursue further growth and value-generating investments

- Divestment of building in Biel initiated in a separate track, closing expected in 6 – 9 months

We continue to build the global leader in Flow Solutions – Acquisition of VAG-Group

Water treatment plant – Želivka (CZ)

VAG products (from left) – butterfly valve, control valve, gate valve, wastewater valve

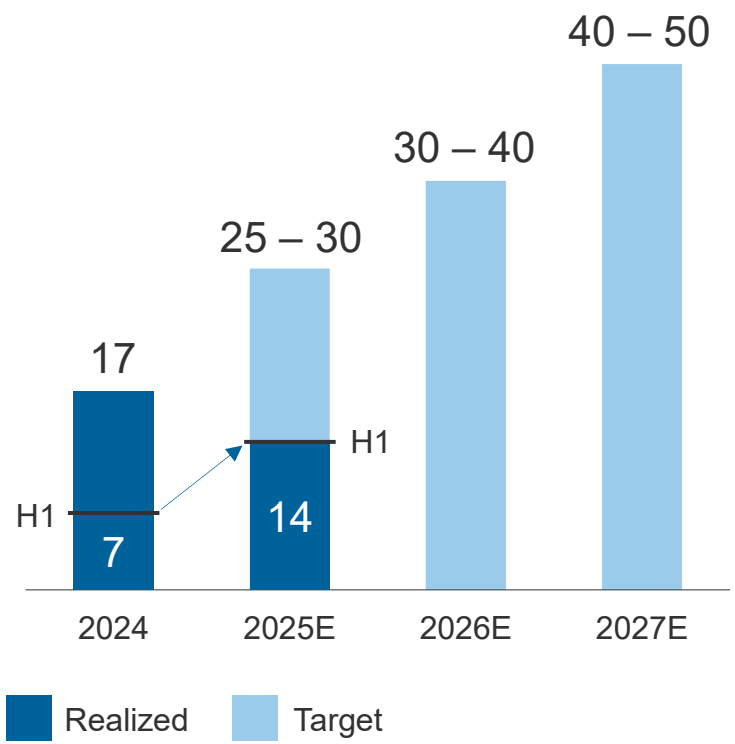

- Acquisition of VAG-Group signed in May
- VAG generates sales of CHF ~190 million
- Complementary products in water infrastructure market – leading specialist for mission-critical metal valve technology
- Strengthens position in the infrastructure market, particularly in Europe and the Middle East
- Transaction value approx. CHF 200 million
- Closing expected in H2 2025

© GF v3.2

Uponor integration – Cost synergies on track, commercial synergies starting to unfold

(CHF million)

Expected annual run rate of synergies until 2027

Key milestones

- Further savings through One GF procurement team achieved
- First commercial synergies in the books and picking up globally
- Footprint consolidation and operational optimization moving at high speed
- One GF initiatives and operating model rolled-out consistently

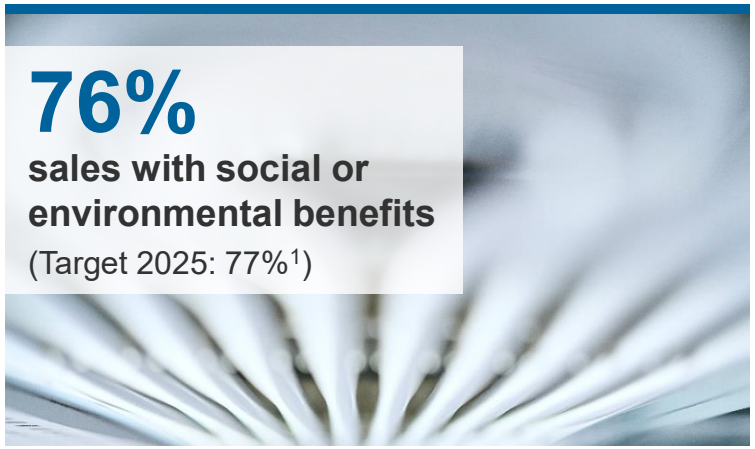

Launch of Uni Pipe and S-Press in Switzerland

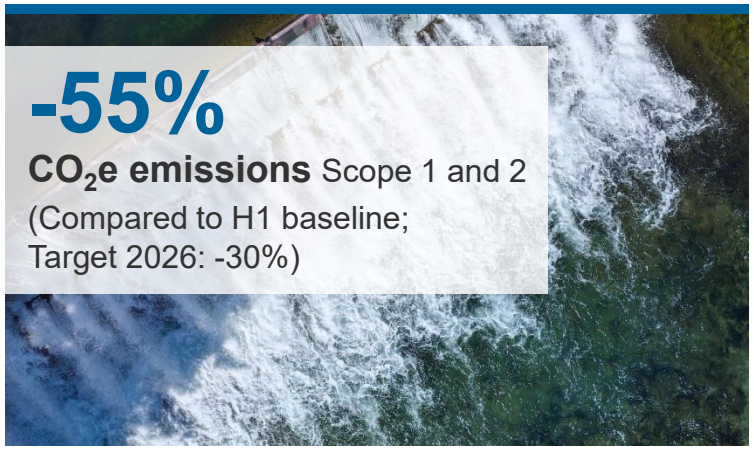

GF ChlorFIT® with Uponor AquaPEX® (US)

© GF v3.2

GF's Flow Solutions business with great progress towards sustainability targets

76%
sales with social or environmental benefits
(Target 2025: 77%[1])

-55%
CO_2e emissions Scope 1 and 2
(Compared to H1 baseline; Target 2026: -30%)

4.0 accidents
per million hours worked
(Target 2025: 4.2[1])

32%
newly appointed women managers
(Target 2025: 25%)

Recognized as a global sustainability leader

[1] The target values have been revised to include only GF's Flow Solutions business

© GF v3.2

GF IIFS – Infrastructure growing, Industry impacted by uncertainty

(in CHF)

Sales

960 million

-1.4% growth YOY

+1.6% organic growth

EBIT margin (comparable)

11.5% (2024: 13.7%)

- Strong momentum in Infrastructure in Europe and solid demand in Middle East
- Industry suffering from tariff-induced uncertainty, delaying investment decisions and negatively impacting demand
- Lower semiconductor-related sales in H1, but very healthy project pipeline
- Comparable EBIT margin lower due to unfavorable product mix, FX and tariffs; partly mitigated by cost-saving measures and progress in value creation program

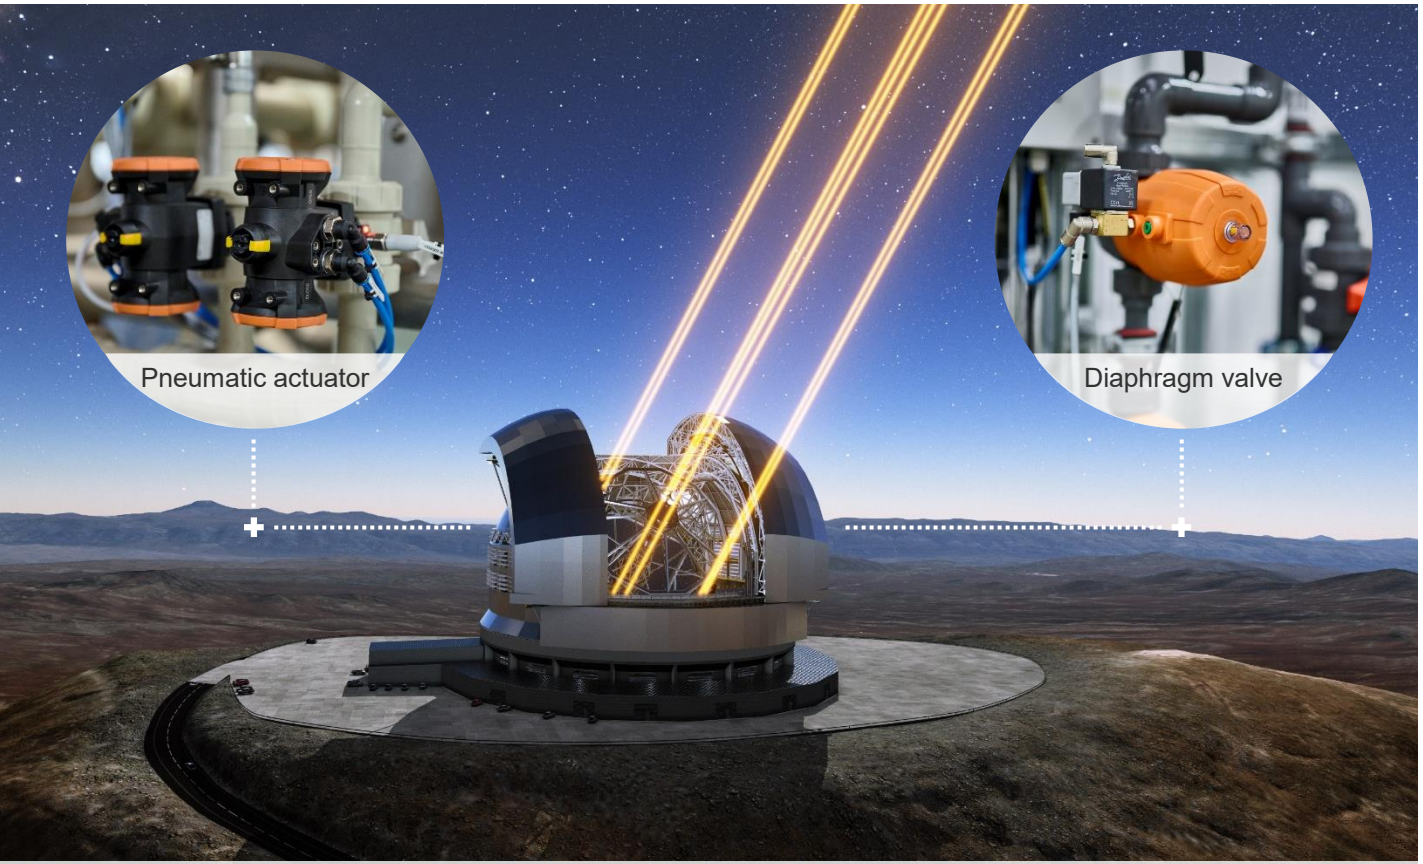

[1] Organic growth

Industry business – Maintaining the world's largest ground-based telescope

ELT (Extremely Large Telescope) – Altacama desert (CL)

Customer needs:

Flow solutions that ensure precise, reliable operations – withstanding harsh conditions to maintain the world's largest telescope

GF solution:

- Manual and automated valves
- Durable piping systems with high chemical resistance
- Critical measurement sensors
- Tailor-made solution for challenging applications

© GF v3.2

Infrastructure business – Enabling Europe's energy transition

Power line A-Nord – Lower Saxony (DE)

Customer needs:

Advanced cable protection systems for underground high-voltage power networks

GF solution:

- PE100-RT withstands 70 °C continuous and 95 °C peak temperatures, ideal for HVDC thermal loads
- Unique dual cable pull capability avoids costly re-excavation
- Full-system solution: pipes, fittings, machines, QA services, training and WeldinAir app for weld traceability

© GF v3.2

GF Building Flow Solutions with mixed market development

(in CHF)

Sales

586
million

-5.6%
growth YOY

-1.6%
organic growth[1]

EBIT margin (comparable)

9.7%
(2024: 9.2%)

- Sales in North America flat despite declining markets
- Sales in Europe mixed, supported by signs for stabilization in the DACH region and Eastern Europe
- Comparable EBIT margin up YOY to 9.7%, supported by cost-saving initiatives and the value creation program
- Combined offering and key innovations unveiled at ISH

Building Flow Solutions – Europe

Building Flow Solutions – North America

[1] Organic growth adjusted for phased out products of closed facilities [2] Organic growth

© GF v3.2

Replacing copper in the tallest new building in Texas

Waterline skyscraper – Austin (US)

Customer needs:

Achieve LEED® Gold certification with tight construction schedule and budget restrictions

GF solution:

- PEX and CPVC combination for domestic water system throughout the 74 stories
- PEX for radiant heating and cooling systems
- Kitting Services to minimize jobsite waste and maximize efficiencies

© GF v3.2

GF Casting Solutions with robust performance despite harsh business environment

(in CHF)

Sales

388 million

-16.0% growth YOY

-14.1% organic growth

EBIT margin (comparable)

4.9% (2024: 8.8%)

- Sales impacted by continued weakness in premium segment of European automotive sector; solid demand in aerospace and industrial gas turbines
- Robust EBIT margin despite harsh environment
- Construction of new die-casting facility in Augusta (US), is proceeding according to plan
- GF Casting Solutions' divestment process well advanced

2025 – Strengthening foundations for sustainable growth

2025 outlook for GF's Flow Solutions business

- **Balanced presence worldwide** and across markets enhances resilience and enables GF to **capture opportunities** across a broad spectrum of applications

- Well positioned to capture long-term trends:
  - Growing project pipeline in **semiconductor industry**
  - Rising adoption of **liquid cooling** technologies for **data centers**
  - Continued investment in sustainable **water infrastructure**
  - Growing demand for **energy-efficient buildings**

Flat to lower single-digit organic growth with a comparable EBIT margin in the range of 10.5 – 12.5%
